PROFESSIONAL SUMMARY

Computer Science graduate (BSc, Second Class Upper) with a technical foundation in NLP, machine learning, and data analysis. Independently built an NLP-based text similarity model achieving 82% accuracy using Python. Google-certified Data Analyst with practical experience in data cleaning, statistical analysis, and structured documentation. Strong professional writer with native-level English; experienced producing research-backed outputs and applying complex guidelines under quality review. Available full-time, remote (GMT+1).

AI AND DATA SKILLS

NLP and ML: Text similarity modelling, feature engineering, scikit-learn, pandas, NumPy

Analysis: Statistical analysis, data cleaning, KPI reporting, Python, SQL, Excel

Annotation and Evaluation: Data labelling, content quality review, RLHF-style output assessment, prompt evaluation

Writing and Research: Professional English writing, fact-checking, structured guideline compliance, AI output critique

PROFESSIONAL EXPERIENCE

Youth Creative Conference (YCC) Operations and Data Coordinator

Abuja | Remote | Apr 2025 - Present

- Authored 20+ structured performance reports and programme briefs for executive stakeholders, demonstrating professional writing quality and the ability to produce accurate, well-reasoned long-form content.
